Al Hilal 'Egrab' Bus Visits AAU

The Deanship of Student Affairs, represented by the Student Council, in Abu Dhabi campus organized an awareness campaign for the Finance and Banking students at the college of Business Administration. The event focused on the latest technologies in Finance and Banking through hosting Al Hilal 'Egrab' bus, the world's first eco-friendly, emission-less, mobile banking branch that embodies the bank's effort to rely on renewable energy and contribute to the welfare of the UAE environment.

The bus will offer a wide range of banking services to individuals including opening accounts, making deposits, ordering check books, applying for a credit card, and using ATM services. The vehicle will also have a designated area for the physically challenged. Al Hilal bank's strategy behind the 'Egrab' bus is to promote the adoption of renewable energy sources and eco-friendly initiatives in the local banking sector in line with Abu Dhabi's 2030 vision.
