Effective participation of for the AAU in the, “Clean Up UAE campaign 2016”

In the framework of its interest in enhancing interaction with the community, Al Ain University of Science and Technology –Al Ain Campus- participated in “Clean Up UAE” campaign 2016, organized by Emirates Environmental Group with a participation of various sectors from UAE in an integrated national initiative. The campaign aims to instill a sense of responsibility among individuals toward the importance of environmental protection and to increase awareness surrounding environmental issues in our world today.

The participation of Al Ain University of Science and Technology represented by the administrative staff comes from the interest to participate in achieving the objectives of maintaining a clean environment, spreading environmental awareness, develop a spirit of cooperation and interdependence within the community, In addition to its interest in the

interaction with the local community issues such as environmental protection, which is considered a very important issue.
