## **Various activities to keep the AAU family healthy**

A healthy open day was organized by the Deanship of Student Affairs at Al Ain University, Abu Dhabi campus, in cooperation with Universal Specialty Medical Center, including free medical consultations and examinations for the AAU family represented by the academic and administrative staffs and students.

Medical examinations on oral and dental health, blood sugar tests and blood pressure were provided by specialists from the Universal Center, in addition to a range of medical advice to maintain the normal rate for both.

Discount cards were also distributed for treatment at the center along with free Vitamin-D samples for children and adults, with advice on ways to maintain normal levels in the body. In addition to the distribution of a range of educational materials and medical bulletins.

It is worth mentioning that this event aims to enhance the health awareness of the AAU family to keep them safe and healthy.
